SUMMARY

QA-focused web developer with 6+ years of hands-on testing experience across WordPress and custom platforms. Complements QA background with full-stack development skills and practical experience writing Playwright E2E test suites. Strong attention to detail, clear technical communication, and a developer's understanding of the systems being tested.

SKILLS

- | | | |
|--------------------------------|-------------------------------|-------------------------------------|
| • Manual & exploratory testing | • React, Redux Toolkit | • Playwright E2E automation |

PROJECTS

Owl Chrysalis Medicine — Client Website

2025 – Present

Vite · React 18 · React Router v7 · Tailwind CSS · Decap CMS · EmailJS · Resend · Vercel

owlchrysalismedicine.com

- Built a multi-page site for a health coaching practice featuring podcast integration, a CMS-backed blog (Decap CMS with GitHub OAuth and markdown-based content), and a contact form with EmailJS
- Implemented subscriber notification and broadcast emails via Resend; integrated Calendly for session scheduling

Where Was That — Full-Stack Web Application

2025 – Present

React · Node.js · Express · MongoDB · Playwright

where-was-that.com

- Built a full-stack app with user authentication, CRUD operations for geotagged places, image uploads, and Redux state management
 - Wrote a Playwright E2E test suite covering the full user journey; implemented Page Object Model scaffolding and shared browser context
-

WORK HISTORY

Freelance Web Developer

2025 – Present

Down by the River Development — downbyriverdev.com

- Sole proprietor providing full-stack web development and ongoing webmaster services to small businesses
- Primary client: Nutritious Movement — building features and maintaining a Rails/React platform with Contentful, Cloudinary, and Shopify integrations
- Manage client communication, scoping, invoicing, and delivery end-to-end

Marketing and Content Coordinator

02/2019 – 06/2025

Nutritious Movement — Sequim, WA

- Performed pre- and post-release testing of features and content across a WordPress platform and a subsequent custom-built Rails/React site
- Contributed to content migration QA during transition from WordPress to a custom platform — validated data integrity, checkout flows, and cross-browser rendering
- Identified and documented UI defects with clear reproduction steps; performed regression testing to verify releases did not impact existing functionality
- Managed website content through Contentful, Cloudinary, and Vimeo; tested and managed email campaigns via Mailchimp

Restorative Exercise Specialist

09/2014 – Present

Self Employed · Nutritious Movement Certified

CERTIFICATIONS & COURSES

Full-Stack Web & Mobile Development Bootcamp — Nucamp

2026

Back End, SQL & DevOps with Python — Nucamp

In Progress

EDUCATION

Bachelor of Science, Exercise Science — California State University, Northridge
